“Such vast experience that naturally shines through, there doesn't seem to be a team dynamic situation that Guy hasn't come across. Powerful delivery, knowledgeable, engaging, inspiring and firm in equal measure, the kind of leader any of us want to be. His humility make him an outstanding partner to any leadership team.

“Guy is incredibly insightful and perceptive, with the ability to get to the crux quickly. With the added ability to help approach one's situation from different perspectives, both being in tune with the coachee and being cognisant of associated stakeholders' and their styles. Guys is a great communicator, his analogies are gold, delivered with style.

“Guy has high EQ, quickly assesses the dynamic of any team, in the most direct, yet subtle of ways, strips that team bare. Then rebuilds its collective strengths whilst being crystal clear on the challenges you face...whichever company I lead, I always turn to Guy for help. Authentic, effective, he makes teams better.
